Literature for the Young.

There are few questions just now agi-

tating the public mind than that of edu-

cation. The study of literature has also high rank among the branches of a good education. In nearly all the schools in the land the cultivation of taste and discrimination in reading the English language is held to be indispensable. This is certainly encouraging, but there is another very important thing just here to be considered. It is with regard to the literature for the boys juvenile literature has received but comparatively little attention. It is true that there have been praiseworthy efforts to introduce a more interesting and elevating class of reading into our schools, instead of the dull, desultory reading books so long in vogue. All these are signs in the right direction, and prove that there is a gradual popusubject. It is to the plans of those who recognize the need of placing juvenile literature that one must look with confidence for its permanent improvement. A little serious reflection would soon effects.

MAINE MEN.

From Bath, Me., we have received, under date of May 15, 1883, the following statement of Guo. W. HARRISON, the popular proprietor of "The Restaurant": "A few years since I was troubled so severely with kidney and bladder affection that there was brickdust deposits in my urine, and continual desire to urinate, with severe, darting, sharp pains through my bladder and side, and again, dull, heavy pressure, very tedious to endure. I consulted one of our resident physicians, but I received no benefit from the treatment, and fearing that my symptoms indicated Bright's Disease, the most dreadful of all diseases, I reade up my mind that I must obtain relief speedily or I would be past cure. I consulted my druggist, Mr. W. bber, and after ascertaining my symptoms, he recommended the use of Hunt's Remedy, as he knew of many successful cures effected by that medicine in similar cases here in Bath. I purchased a bottle, and before I had used the first bottle I found I had received a great benefit, as I suffered less pain, my water became more natural, and I began to improve so much that the second bottle effected a complete cure; and my thanks are due to Hunt's Remedy for restored health, and I cheerfully recommend this most valuable and reliable medicine to my friends, as I consider it a duty as well as a pleas-

BLACKSMITHS' TROUBLES.

Having had occasion to use a remedy for kidney troubles, I noticed an advertisement in one of the pa pers of the remarkable cures that Hunt's Remedy had made all over the country. I purchased a bottle at one of our druggists here in Manchester, and after using it for a short time found that it was belping me wonderfully, and one bottle has cured me completely-have no indigestion, and am hearty and healthy for one of my years (65), and can truly say that Hunt's Remedy is a medicine that has real merit, and I do not hesitate to recommend it to the public in general.
